Submitting Out-of-State Results
Connecticut FAST and CSI Championship Proof of Time

USA Swimming sanctioned/observed meets held outside of CT may be uploaded into Connecticut *FAST* by contacting Ginger McCurdy, ctswim.mccurdy@gmail.com. Please supply:

1. The meet start date;
2. The LSC in which the meet was held;
3. The name of the meet.

For the purposes of accuracy, official out-of-state results are exported from USA Swimming's SWIMS database. The reason for using the SWIMS export is that most (maybe all) of the surrounding LSCs don't review splits for accuracy and SWIMS doesn't automatically upload splits. If splits are needed for the FAST OFFICIAL times table then contact the meet host or LSC and request they load the splits into SWIMS. After that is done, request Ginger McCurdy load a revised SWIMS export into FAST OFFICIAL times.

Times cannot be manually entered into the FAST official times database.

CSI Championship Meets

Times achieved at any USA Swimming sanctioned/approved/observed meets may be used as qualifying times for CSI championship meets assuming other eligibility requirements have been met. The pertinent page of the meet result is to be submitted with the championship meet entry UNLESS:

1. The meet is uploaded into *FAST*
2. The results have been received in the CSI office prior to the meet entry deadline.
